Accessibility Remediation Report

- **Original document:** aviso-privacidade-saude.pdf (5 pages)
- **Remediated file:** accessible.pdf
- **Document title:** Notice of Privacy Practices (Updated November 1, 2025) – New Philadelphia City Health Department
- **Date:** 2026-11-04
- **Target:** WCAG 2.1 Level AA and PDF/UA-1 (ISO 14289-1)
- **Method:** The document was rebuilt with semantic structure (headings, lists, tables and alternative text for images) and exported as a tagged PDF.

Automated checks

Check	Before	After
Real text on every page (no image-only pages)	Pass	Pass
Tagged PDF (structure tree and MarkInfo)	Pass	Pass
Document title set and displayed	Fail	Pass
Document language set	Fail	Pass
Headings (H1–H6) in the structure	Fail	Pass
All figures have alternative text	N/A	Pass
Tables have header cells	Fail	N/A
Form fields have descriptions	Fail	N/A
Tab order follows structure on pages with links or fields	Fail	Pass
Fonts embedded	Pass	Pass
PDF/UA-1 identifier	Fail	Pass
Bookmarks in documents longer than 4 pages	Fail	Pass

Content check: 100.0% of the original words are present in the remediated file (automated comparison; repeated page headers, footers and page numbers excluded).

Verification

Test	Tool	Result
PDF/UA-1 machine-checkable requirements	PAC 2026 (26.1.0.0), axes4	Passed, 0 errors (report: PAC2026-PDFUA-report.pdf)
WCAG 2.2 requirements checked by PAC	PAC 2026 (26.1.0.0), axes4	Passed, 0 errors (report: PAC2026-WCAG-report.pdf)

Test	Tool	Result
Quality checks	PAC 2026 (26.1.0.0), axes4	No quality issues
PDF/UA and WCAG	PAC 2024 (24.4.4.0), axes4	Passed
Reading order and semantics, simulated from the tags (headings, lists, table headers, alternative text, links, form fields)	pdfa11y	100.0% of the original words are read, 100.0% in the intended order
Screen reader test: opened in Adobe Acrobat Reader with NVDA running; NVDA's speech output recorded and checked (continuous reading, quick navigation)	NVDA 2026.3 with Adobe Acrobat Reader (64-bit)	Passed: 100% of the original words read, 100% in the intended order; 32 of 32 headings announced with their level; 27 of 27 lists announced with their item count; 1 of 1 images read with their full alternative text; 5 of 5 links announced; quick navigation reached every heading, list, link, image (transcript: nvda-speech-log.txt)
Color contrast (WCAG 1.4.3)	Style sheet	Body text #111 on white 18.9:1; links #0645AD 8.5:1; captions #333 12.6:1; table headers on #E8E8E8 15.4:1

Items still for a person to confirm: the alternative text against each image.

Statement

Remediated with an AI-assisted workflow. Every word of the original is compared automatically against the output, and the file was checked with the tools listed above. This report describes the tests performed on this file. It is not a legal opinion or a certification of compliance with the ADA, Section 504 or any other law.
